## Maxxus 3 Per Corner Near Zero EMF FAR Infrared Carbon Canadian Hemlock Sauna

**Product Code:** MX-K356-01-ZF-HEM

**Category:** Sauna

**Brand:** Sauna Guy

Maxxus Canadian Hemlock Saunas bring healthy living and longevity to the privacy of your home cost effectively. Modern technology and energy efficiency in FAR infrared carbon heating panels allow beneficial penetrating FAR infrared waves to remove body toxins, increase blood circulation, ease pain from sore muscles or aching joints, burn calories and improve skin tone among other benefits. Maxxus Near Zero EMF FAR Infrared Saunas are constructed with the environment in mind which accounts for our efforts in using Reforested Canadian Hemlock wood. Our sauna walls are double paneled constructed with the thickest interior and exterior wood planks compared to others in the same industry. This all translates to a quality sauna that retains heat more efficiently, heats up faster and wastes less energy. Our Near Zero EMF FAR infrared Carbon Energy Efficient heating panels are 30% larger than saunas heated by ceramic tubes and penetrate skin 40% more to maximize therapeutic benefits. Unlike ceramic heaters, you will never have to replace our Carbon Energy Efficient heating panels. Maxxus Saunas Carbon Energy Efficient panels also heat up 30% faster than saunas equipped with ceramic panels and 100% faster than rock and water steam saunas. Maxxus Saunas 3-person sauna is designed for ease of use and is an outstanding value. Enjoy the convenience of operating a Maxxus Sauna with our dual (interior and exterior) soft touch control panel and LED display featuring sauna temperature and time functions. Every Maxxus Sauna is equipped with a reduced wattage floor and lower bench heater to allow the same benefits and treatment to your legs and feet without the burning sensation of other sauna manufactures. Enjoy your sauna session with your favorite music through the sauna's built in FM radio, Bluetooth, and MP3 auxiliary connection with speakers. Maxxus Saunas enhances your sauna experience with Chromotherapy (color therapy) lighting system. The sauna plugs into a dedicated 120 V / 20 AMP Outlet and Breaker (Not 220/240 V), (please consult a certified electrician for replacing a 15 amp dedicated receptacle to an approved 20 amp dedicated receptacle and 20 amp breaker). The Maxxus sauna may be installed on carpet and at any indoor location including the basement, garage, master bath or walk in closet. Our sauna would be a beautiful and worthwhile addition to any fitness room. See and feel the difference today!

## Golden Designs "Barcelona Select Elite" 1-2-person PureTech™ Near Zero Far Infrared Sauna Canadian Hemlock

**Product Code:** GDI-6106-01-Elite

**Category:** Sauna

**Brand:** Sauna Guy

Golden Designs PureTech™ Near Zero EMF Saunas are constructed with the environment in mind which accounts for our efforts in using Reforested Canadian Hemlock wood. Our sauna walls are double paneled constructed with the thickest interior and exterior wood planks compared to others in the same industry. This all translates to a quality sauna that retains heat more efficiently, heats up faster and wastes less energy. Golden Designs 1-2 Person model offers 6 PureTech? Near Zero EMF infrared Carbon Energy Efficient heating panels (including an industry leading foot heater) that produce a wider, softer heat that is evenly distributed throughout the sauna. Our PureTech? Near Zero EMF infrared Carbon Energy Efficient heating panel heaters are 30% larger than saunas heated by ceramic tubes and penetrate skin 40% more to maximize therapeutic benefits. Unlike ceramic heaters, you will never have to replace our Carbon Energy Efficient heating panels. Unlike traditional rock and water saunas (which heat at or over 200F and do not penetrate your skin), Golden Designs Saunas operate at a much lower and safer 130F. In fact, Golden Designs Saunas operate most effectively at 120F thus allowing you to enjoy the sauna longer and maximize all potential health benefits. Golden Designs 1-2 person sauna is designed for ease of use and is an outstanding value. Assembly is a snap and takes less than 1 hour. Enjoy the convenience of operating a Golden Designs Sauna with our dual (int. and ext.) soft touch control panel and LED display featuring sauna temperature and time functions. Play your favorite music through the saunas built in Bluetooth - MP3 aux connection with speakers. The sauna plugs into any dedicated 15 amp 110 volt outlet so no special wiring is required and the sauna may be installed on carpet and at any indoor location including the basement, garage, master bath or walk in closet. Our sauna would be a beautiful and worthwhile addition to any fitness room. See and feel the difference today!.

## Catalonia 8 Person Ultra Low EMF FAR Infrared Sauna

**Product Code:** GDI-6880-01-Catalonia

**Category:** Maxxus Hemlock Low EMF FAR IR

**Brand:** Sauna Guy

Catalonia 8 Person Ultra Low EMF FAR Infrared Sauna Dynamic Saunas is proud to offer the Catalonia which is wheelchair accessible and features the PureTech Ultra Low EMF FAR infrared heating panels. When the benches are removed, the sauna becomes a yoga studio. Constructed with the environment in mind, our saunas are made with reforested Canadian Hemlock planks that surpass industry standards, thus producing a quality sauna that retains heat more efficiently, heats up faster and uses less energy in the process. Features: 8 Person capacity 8 Custom designed portable comfort benches Exterior dimensions (WDH): 87" x 75" x 87" Interior dimensions (WDH): 82" x 70" x 82" Bluetooth and MP3 auxiliary connection Interior and Exterior LED control panel (3 sets of control panels to operate the whole sauna) Interior reading lights Galaxy star chromotherapy lighting system Natural Reforested Canadian Hemlock wood construction Electrical service: Requires 3 individual 110V/20amp dedicated receptacle (Please consult a certified electrician.) (Sauna comes with 3 power supplies to operate) Clasp together assembly 23 Carbon PureTech™ Ultra Low EMF Heat Emitters (Heating Panels) Extra wide bronze privacy tempered glass door (Wheel chair accessible) Roof vent Sauna weight: 920 lbs. Shipping weight: 1130 lbs. Ships in 9 boxes Benefits of Hot Yoga Flexibility: No, you won't be forced into contortionist positions. The heat will allow you to safely reach new levels of personal flexibility in beginner's postures, which is therapeutic for your body (see number seven). Plus, let's be honest, being flexible is cool. You'll be busting out Standing Bow Pose at your next party. Strength: Your own body is your gym. This yoga is low impact and uses muscles you didn't know you had-trying standing in a wide lunge for Triangle pose on carpet and not sliding! Also, a prime focus is on spine strength, which is key to a long healthy life! Breath: The definition of Hatha Yoga asana is: stillness in a posture while breathing normally. With the added element of the heat, you won't make it far if you don't breathe deeply! If there is no breathing, there is no yoga. It won't take long before you learn to breathe in a full and controlled manner. Cardio: Your heart can work the same way doing yoga postures in a heated room as it does when running a mile, and you never even leave your mat. Particularly in postures when you are balancing and contracting your muscles at the same time. A 90-minute class can burn up to 1,000 calories. The way you stretch and compress your internal organs and glands also stimulates metabolism so you are burning calories quicker outside the room as well. Detox: The heated room helps you to stretch more and get your cardio, but it also helps you sweat. The postures themselves are detoxifying for your muscles, organs, and glands and sweating furthers that. Focus: Most Hot Yoga classes consist of the same 26 postures and two breathing exercises-and if not, there is almost always a dialed routine. The routine helps you to advance your practice through repetition. As you advance, you gain tremendous focus and determination. The ability to focus carries over to your daily life. When you can focus on the task at hand, you'll excel and you can enjoy it more. Healing: The primary purpose of this yoga is therapy. With a regular practice, these postures can help to heal old injuries and also prevent them in the future. This is especially true for, but not limited to, back pain. Don't skip the postures that are slightly uncomfortable. Hot Yoga is also known to reduce symptoms of conditions and illnesses including diabetes, asthma, high blood pressure, depression, arthritis and obesity.

## Maxxus "Seattle Edition" 2 Per Low EMF FAR Infrared Carbon Canadian Hemlock Sauna

## Maxxus 3 Per Corner Near Zero EMF FAR Infrared Carbon Canadian Hemlock Sauna

**Product Code:** MX-K356-01-ZF-HEM

**Category:** Maxxus Hemlock Near Zero EMF FAR IR

**Brand:** Sauna Guy

Maxxus Canadian Hemlock Saunas bring healthy living and longevity to the privacy of your home cost effectively. Modern technology and energy efficiency in FAR infrared carbon heating panels allow beneficial penetrating FAR infrared waves to remove body toxins, increase blood circulation, ease pain from sore muscles or aching joints, burn calories and improve skin tone among other benefits. Maxxus Near Zero EMF FAR Infrared Saunas are constructed with the environment in mind which accounts for our efforts in using Reforested Canadian Hemlock wood. Our sauna walls are double paneled constructed with the thickest interior and exterior wood planks compared to others in the same industry. This all translates to a quality sauna that retains heat more efficiently, heats up faster and wastes less energy. Our Near Zero EMF FAR infrared Carbon Energy Efficient heating panels are 30% larger than saunas heated by ceramic tubes and penetrate skin 40% more to maximize therapeutic benefits. Unlike ceramic heaters, you will never have to replace our Carbon Energy Efficient heating panels. Maxxus Saunas Carbon Energy Efficient panels also heat up 30% faster than saunas equipped with ceramic panels and 100% faster than rock and water steam saunas. Maxxus Saunas 3-person sauna is designed for ease of use and is an outstanding value. Enjoy the convenience of operating a Maxxus Sauna with our dual (interior and exterior) soft touch control panel and LED display featuring sauna temperature and time functions. Every Maxxus Sauna is equipped with a reduced wattage floor and lower bench heater to allow the same benefits and treatment to your legs and feet without the burning sensation of other sauna manufactures. Enjoy your sauna session with your favorite music through the sauna's built in FM radio, Bluetooth, and MP3 auxiliary connection with speakers. Maxxus Saunas enhances your sauna experience with Chromotherapy (color therapy) lighting system. The sauna plugs into a dedicated 120 V / 20 AMP Outlet and Breaker (Not 220/240 V), (please consult a certified electrician for replacing a 15 amp dedicated receptacle to an approved 20 amp dedicated receptacle and 20 amp breaker). The Maxxus sauna may be installed on carpet and at any indoor location including the basement, garage, master bath or walk in closet. Our sauna would be a beautiful and worthwhile addition to any fitness room. See and feel the difference today!

## Golden Designs "Barcelona Select Elite" 1-2-person PureTech™ Near Zero Far Infrared Sauna Canadian Hemlock

**Product Code:** GDI-6106-01-Elite

**Category:** Golden Designs Traditional Saunas

**Brand:** Sauna Guy

Golden Designs PureTech™ Near Zero EMF Saunas are constructed with the environment in mind which accounts for our efforts in using Reforested Canadian Hemlock wood. Our sauna walls are double paneled constructed with the thickest interior and exterior wood planks compared to others in the same industry. This all translates to a quality sauna that retains heat more efficiently, heats up faster and wastes less energy. Golden Designs 1-2 Person model offers 6 PureTech? Near Zero EMF infrared Carbon Energy Efficient heating panels (including an industry leading foot heater) that produce a wider, softer heat that is evenly distributed throughout the sauna. Our PureTech? Near Zero EMF infrared Carbon Energy Efficient heating panel heaters are 30% larger than saunas heated by ceramic tubes and penetrate skin 40% more to maximize therapeutic benefits. Unlike ceramic heaters, you will never have to replace our Carbon Energy Efficient heating panels. Unlike traditional rock and water saunas (which heat at or over 200F and do not penetrate your skin), Golden Designs Saunas operate at a much lower and safer 130F. In fact, Golden Designs Saunas operate most effectively at 120F thus allowing you to enjoy the sauna longer and maximize all potential health benefits. Golden Designs 1-2 person sauna is designed for ease of use and is an outstanding value. Assembly is a snap and takes less than 1 hour. Enjoy the convenience of operating a Golden Designs Sauna with our dual (int. and ext.) soft touch control panel and LED display featuring sauna temperature and time functions. Play your favorite music through the saunas built in Bluetooth - MP3 aux connection with speakers. The sauna plugs into any dedicated 15 amp 110 volt outlet so no special wiring is required and the sauna may be installed on carpet and at any indoor location including the basement, garage, master bath or walk in closet. Our sauna would be a beautiful and worthwhile addition to any fitness room. See and feel the difference today!.
